

Call for Presentations!

Fall 2022 Conference

September 26 - 29

Hosted by Southern Company in Birmingham, Alabama

Conference Theme

"MUWG 25 Years - Learning From the Past and Forging Ahead"

We are excited that this conference celebrates MUWG's 25 Year Anniversary of providing a forum for Maximo users to exchange information, methods and experiences, improve asset and work management practices and processes in the utility work place. MUWG conferences include the Maximo Supply Chain Users Group (MSCUG) and the Mobile Users Group for Maximo (MUGM) which are both inclusive of all industry types and are open to any Maximo Users.

As a valued members, we want to hear from you and are currently seeking presenters to submit their abstracts for our conference general sessions and breakout sessions. Speaking at a MUWG Conference gives you the opportunity to network with peers and gain insight and recognition from industry professionals. Sessions can be either strategic or technical in nature and range from 30-75 minutes in duration. This is your opportunity to become one of the "Best Practice" presenters at the conference and share your experiences with your peers. Speakers should plan on presenting in-person.

Submitted speaker proposals should relate to the conference theme and include:

- Title
- Abstract (250 words or less)
- Speaker Name, Email Address and Phone
- Organization

MUWG Conferences include Tracks for Power Generation, Transmission/Distribution, Water/Waste Water, Supply Chain, Mobility, Spatial, Transportation/Fleet, Information Technology, and General Maximo. Any Maximo success story may be submitted, suggested topics include:

- The evolution of Maximo in an organization, initial implementation, growth, add-ons, etc.
- How a Member has used data and information to change business processes and Maximo configuration
- A members experience with the work involved in making major changes to the Location and Asset hierarchy to meet new business requirements
- A members presentation on why and how they determined it was necessary to address the Work Culture and improve the work environment
- A member s presentation about the process of changing from reactive maintenance to a Planned and Scheduled way of managing maintenance - challenges and benefits
- Unlocking the keys to a successful Asset Management Program - How to recognize the need and build a plan/project to change the business and the work culture
- Mobility Solutions for inventory management, work management, operator rounds/readings, inspections, etc.
- Implementing Mobility/Smart Wear technology solutions with Maximo
- Mobile device selection
- Maximo Upgrades
- Maximo as a Supply Chain Solution
- Purchasing / Inventory related topics
- Industry Solutions (Utilities, Linear, Spatial, Scheduler)
- Using Maximo Compatible Unit Estimating
- Integrated Operations and Maintenance
- Overcoming Maximo Technical Challenges
- Continuous/Process Improvement Initiatives
- Using Maximo to Optimize Inventory and Purchasing
- Continuous/Process Improvement Initiatives
- Upgrading to Maximo Application Suite

Email completed speaker proposals to claycook@muwg.org. The deadline to submit is: Wednesday, July 6th, 2022.

Approved abstracts for general sessions and breakout sessions include a free conference pass for one speaker.

Vendors should encourage clients with Maximo "Best Practice" experiences to submit their speaker proposal(s). MUWG has a long standing policy that vendors can assist with a client presentation but the client must be the main presenter.

If you have any questions about submitting a speaker proposal or the conference, please contact Clay Cook at 979-966-2600 or claycook@muwg.org.
